PIN THE TAIL ON THE HIPPO

Instructions

- **Step 1**

Print the template of the hippo and mount it onto a piece of foam board, then attach it to a position on the wall where all players can easily reach.

- **Step 2**

Print one hippo tail template for each player and mark their names clearly on the side.

- **Step 3**

Attach some adhesive tape to the top of each tail so the players are able to pin the tail on the board.

- **Step 4**

In turns each player has a try to place the tail onto the hippo's body after being blindfolded and spun around in circles.

- **Step 5**

Throughout the game, tails should remain on the board until the last player has taken their turn.

- **Step 6**

The winner is the player who placed their tail closest to the correct spot on the hippo.
